Opportunities in Science Policy

Enhance policy while transforming your career.

Join us for a conversation to learn about AAAS Science & Technology Policy Fellowships and how you can contribute to public service, while developing valuable career-enhancing skills.

You’ll learn:

**What are the AAAS S&T Policy Fellowships?**
A unique public service and professional development opportunity for doctoral level scientists and engineers* at all career stages to address today’s complex societal challenges.

**Where do fellows work?**
In all three branches of the federal government in Washington, D.C.

**How will a policy fellowship enhance my career?**
Broaden your career skills. Develop an extensive network of contacts and pursue careers in a variety of sectors.

* applicants with a MS in engineering and three years of professional experience are also eligible to apply.
